Not many people have heard of this bot. This is a new innovation as a profit bot and a super profitability for this very bot. The strategy is based on stoch and RSI. These two strategies are very popular in the forex industry. The same strategy is used here in this bot. According to the strategy the bot trade can be a challenge or put. There is 60% profitability to use this bot. On the other hand, if you lose any bet, the next bet will be martingale 2 times. So, in the end you will win the session with a decent profit. You can experience 4-5 consecutive losses in a row. We do not recommend working with this bot all day long. While this bot makes a good profit, we suggest running this bot for 5 to 10 minutes per session. You can run 2-3 sessions a day. Always remember, the less you are in the market, the less likely you are to lose your money. Reboot to update the session. If you are looking for a safe and simple binary bot out there, a downward binary bot may be the right choice for you. This bot is so cute. The strategy is clear. Anyone can use this bot and make a profit with an understanding of market trends. If you want to check out the trend bot, there are 22 call premium bots. A simple strategy is used for this binary bottom-down bot. Each bet will be placed here, and the established barrier is 1.5. You can change the barry if you like more tests. This bot works amazingly best when the market is in a downtrend and neutral trends. The margin is almost 95% when the trend is down or the trend is neutral. Even the barrys used in bots can give you a profit in upward trends. Set barrys are the most important factor in this binary bot. Before you use this bot for your binary account, please check the trends. If it's strong up, don't run the bot. You have to exit the market when you reach the target profit, we don't know when trends are going against us. Don't be greedy, don't make any profit and stop trading. However, the bot does not martingale must be programmed to correct and strong trading methods that most of the time succeed and reach profit After a great effort, I was able to program this robot not martingale that uses the best trading strategies on the market . On the other hand, it doesn't use Martingale strategy or hedging, as you see in the pic below. As a result, that thing makes it well appreciated by everyone who used it and won the admiration of many traders. This bot can not be offered for free, the reason maybe it will cause problems for the broker binary.com and it can cancel the bot system because of this, I suggest this bot for sale cheaply compared to the profit it makes.
